

Super Meet 2006

The course of a season has many twists and turns but not any more than we saw at Birdsall Park with all the 180 degree hairpins you had to maneuver. That slows runners down but apparently others more than you ☺. I would gauge this course to be about 15-20 seconds slower than our own so evaluate your times accordingly. Even so there were several PRs and SBs. The Fresh/Soph got us started nicely with a solid performance and a decisive 76 point victory. The JV followed with a near perfect score and the Varsity disposed of the field in convincing fashion. Congratulations on another job well done.
