

District 2003

Yesterdays District results confirm that the race for the State Championship is up for grabs. For any who have doubted that it can be us look no further than the bottom of this page. We have yet to hit a race on all 7 cylinders and yet our times at Noelridge last week would have dominated West High yesterday. On the other hand we know if we don't run our best there are several teams in the state that will make us pay. We ran well yesterday. Everyone improved on September's times. But I know each of us can improve on yesterday's performance. **Like last year *the team that run's closest to their very best will be victorious.*** In the words of Robert Kennedy: **"If not you, who? If not now, when?"**
