

Griak 2007

It was a wet windy day and the turf was soft but our 10 runners ran hard and proud. We placed 6th in a very competitive field with teams from all over the country. Comparing times with previous years is difficult as you can see with the course being much faster in 2005 and about the same the past two years. Dowling was impressive and will be very tough to catch but we have historically improved more than our opposition during the month of October, and there is no reason to expect otherwise this year. We have big meets each week from here on out. Let's use those competitions to gain the strength and resolve we need before we compete against the Maroons of Dowling again at State.
